CLAIMS 1-26 ARE PRESENTED FOR EXAMINATION

Applicant's arguments filed December 23, 2003 have been fully considered but they are not persuasive.

The Examiner disagrees with the Applicant that a skilled artisan can readily determine derivatives of serine or alanine usable in the present invention. The Examiner reasserts that Applicant's invention relates to the inhibition of a biological pathway, i.e., a mechanism of action. The elected claims 18-24 are drawn to encompass compositions comprising an effective amount of a D-serine transport inhibitor.

The claims are drawn to compositions which contain active compounds which were known to be in the form of compositions prior to Applicant's filing date as admitted by Applicant at page 4, lines 8-15. That Applicant has discovered a new use for such composition does not render the composition patentable.

As stated in *In re Spada*, 911 F.2d 705, 708, 15 USPQ2d 1655, 1657 (Fed. Cir. 1990) "discovery of a new property or use of a previously known composition, even when that property and use are unobvious from the prior art, can not impart patentability to claims to the known compositions.

That Applicant has set forth derivatives in the appendix submitted with the response of December 13, 2003 is not persuasive since the compounds were not within the knowledge of the Applicant as of the filing date of the subject application. It was unknown to Applicant which derivatives containing the radicals as claimed would be effective without undue experimentation.

In view of the rejections set forth in the Office Action of June 23, 2003 is repeated herein.

Claims 18-24 are rejected.

The Terminal Disclaimer filed December 23, 2003 has been accepted.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
